## WHAT YOU NEED TO KNOW:

On December 17, 2010, President Obama signed the Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010. This law extends the tax credits for energy efficiency into 2011, BUT at lower levels. The levels revert back to the 10% of the cost of the improvement, up to \$500, with a \$200 max for windows, and several other set maximums.

Installations on the eligible property must take place from Jan. 1, 2011 to Dec. 31, 2011.

- Not all **EnergyStar** labeled products will qualify for the credit.
- 10% of the cost of qualified materials (not labor) up to \$500 can be credited.
- Maximum credit per homeowner for all improvements combined is \$500.
- A tax credit is an immediate deduction from tax liability, not a tax deduction or rebate.
- Pre-2006 credits are not counted toward the new \$500 maximum.
- These tax credits are not available on new homes.

## QUALIFIED PRODUCTS

### ABC Steel Roofing:

ENERGY STAR rated roofing colors qualify for the Energy Tax Credit.  
ALL solid & blended ABC Steel Roofing colors qualify for the credit.

### Seamless Siding with Insulation:

Our insulation packages are compliant and qualify for the 2011 ENERGY TAX CREDIT.
